# MEDIA

## AV & Media

The following standard audiovisual equipment will be provided in each room:

- Data projector equipped with an HDMI cable to accommodate both PC and Mac platforms (subject to change to VGA, depending on AV onsite) at the podium for presentations. If your laptop does not have an HDMI output, we recommend you bring an adapter for your laptop depending on what ports your laptop has.
- An internet connection and a projection screen
- Microphones will be supplied as needed in larger rooms

## IMPORTANT: BYOD

All sessions are designated BYOD (Bring Your Own Device). Presenters are responsible for bringing their own computer equipment for all workshops, presentations, and discussions, including adapters that might be needed to connect to an HDMI cable.

# WARNING!

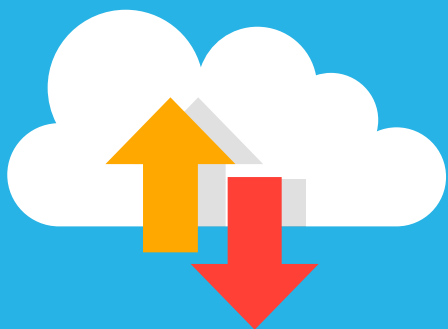

OLC provides conference registrants with internet access. However, given the number of presenters and attendees, the amount of bandwidth available at a given time fluctuates.

Past presenters have encountered difficulties trying to stream large presentations such as those which require a high bandwidth. We strongly recommend you have a local copy of your presentation on your hard drive or on physical media in the event you are unable to effectively connect to any files stored online.

We encourage you to build your personal brand by using your own (or your institution's) PowerPoint template for your presentation. OLC does not provide a PowerPoint template; however, in March, we will send you a link to a slide to insert at the beginning of your presentation to remind your audience to provide feedback on your presentation. The session evaluation form can be found on both the OLC Conferences mobile app and on the OLC website.

## Uploading Your Presentation Materials

**IMPORTANT:** You are strongly encouraged to post your presentation as link, a PDF, or PowerPoint file to your session in the OLC conference management system by **April 4, 2018**. Presenters will receive an email containing instructions in March.
