> Enhanced teaching and learning theory application knowledge
> Critique of two course assignment plans by an expert online specialist
> Feedback from colleagues on assignment plans
> Insight into innovative ways to engage the students and improve their participation

How did you hear about the OLC Mastery Series?
The Hampton University School of Nursing Dean, Dr. Shevellanie Lott, provided the faculty with information regarding this program and the opportunity to attend the series.

Why the need/interest in the OLC Mastery Series?
The school offers several courses which are hybrid, online or web-enhanced; therefore, we all need to understand how to increase student engagement using web-based materials/resources.

How did the program help you in your position/career?
The OLC Online Mastery Series increased my knowledge on how to apply teaching and learning theories when developing assignments. Also, the instructor provided multiple web-based resources which will assist me in improving student engagement in my courses.

To whom and why you would recommend the OLC Mastery Series?
I would recommend OLC Online Nursing Mastery Series Program to other nurse educators as well as educators outside my discipline. Recommendation of this series to other faculty members is warranted because they can gain insight into their teaching style, learn how to improve student engagement and receive invaluable information on innovative educational technologies.

"The OLC Online Nursing Mastery Series Program faculty provided the Hampton University School of Nursing cohort with practical and innovative ways to engage our students using web-based resources."

Find an OLC Mastery Series that best meets your professional development needs.

Explore relevant research and use that research to help you design an effective teaching and learning environment.
