

"OLC has a proven track record in training and development which is encapsulated in this certificate program."

*Florence Gilzene Cheese, Instructional Development Coordinator,
The University of the West Indies (UWI)*

"If you want to be a great online facilitator you should go to the experts!"

Navigate and Change Online Environments by Applying Competencies Beyond a Basic Level

How did you hear about the OLC Advanced Online Teaching Certificate Program?

As a member of the OLC, I read about the Advanced Certificate through program notices on the OLC website and reminders in the OLC conferences, Accelerate and Innovate. After reviewing the program summary and exploring the customer stories, I was excited about the possibility of joining the next cohort of the course, which promised opportunities for engagement in advanced practices in online learning.

Why did you choose the OLC Advanced Online Teaching

Certificate Program? Much of my faculty training experience has come through experiential learning and ad hoc training experience in the corporate and educational arenas. I am always interested in implementing innovations that would benefit the faculty I support. The OLC Advanced Online Teaching Certificate Program supports leaders in the field of online learning through the application of Web 2.0 tools and innovations that support students of today's technology. I felt that this program was a good fit for developing my skillset at an advanced level, while allowing information exchange with colleagues in online teaching and learning.

How did the program help you in your position/career?

I have been able to demonstrate leadership while managing a change process that supports instructor development at my institution. The application of the OLC Pillars of Quality in Online Education to areas of teaching and learning has helped me to develop greater self-efficacy, especially in accessibility, which is still emerging in the Caribbean region served by the UWI.

To whom and why you would recommend the program?

Having been the beneficiary of the knowledge and best practices, I would recommend the program to faculty who have completed basic training in online learning or have over two years of experience teaching online. **If you want to be a great online facilitator you should go to the experts!**

About Florence

Florence Gilzene Cheese works as a Distance Learning Instructional Specialist at the University of the West Indies, Open Campus. The University serves 17 English Speaking Caribbean countries and the Open Campus supports this thrust to educate the region through programs that are offered fully online. She has been working in faculty training and development since 2009. As IDC, her role in the university is to provide leadership in the areas of curriculum and pedagogy.
