

OLC ONLINE TEACHING CERTIFICATE PROGRAM

“The OLC Teaching Certificate Program is an experience that will help you integrate teaching and technology into the future of education.”

*Cynthia Williams, Assistant Professor,
University of North Florida*

“If you want to teach people a new way of thinking, don't bother trying to teach them. Instead, give them a tool, the use of which will lead to new ways of thinking.”

-R.B. Fuller

Enhance and Develop Your Teaching Skills

Why did you choose the OLC Online Teaching Certificate Program?

The OLC Online Teaching Certificate Program fills a gap in education by providing instructors tools to enhance the quality of online education. Online education affords many students the opportunity to attend classes while maintaining their job and family obligations. However, as educators, we are responsible to maintain the quality of education, regardless of the platform of delivery. The variety of classes offered in this program allowed me to tailor the course work to identify knowledge gaps and fill my specific needs. The OLC Online Teaching Certificate Program provides support and denotes an achievement in academic teaching excellence in the online platform. I value the opportunity to engage my students and harness their interests in the subject through the use of innovative tools. Many of the concepts I learned I am able to apply in face-to-face and hybrid classes.

How did the program help you in your position/career?

The OLC Online Teaching Certificate Program increased my ability to teach effectively online and be a resource for colleagues. I have enhanced or developed several online classes for my institution. As a reviewer, I value the opportunity to help others achieve excellence in online teaching.

How would you encapsulate the OLC Online Teaching Certificate Program?

The OLC Teaching Certificate Program is an experience that will help you take your online teaching to the next level by understanding the weaknesses in your courses, challenging you to think outside the box, allowing you to exercise your creativity, and providing feedback from multiple sources on what you create.

To whom and why you would recommend the OLC Online Teaching Certificate Program?

I would recommend this program to anyone who wants to engage learners through an electronic platform.

About Cynthia

Cynthia has worked as a clinician and entrepreneur in the industry. She serves as the Director in the Center for Aging Research at UNF and research interest lies in health information technology and population health. So, it is quite natural that she aims to apply innovative solutions to extend the reach of education using engaging methods. In the academic setting, she has taught health information systems, managerial epidemiology, aging policies and politics, long term care administration. She has developed and delivered courses in face-to-face, online, and hybrid formats.

TOP PROGRAM BENEFITS:

- **Increases confidence in teaching online**
- **Increases student engagement and interaction with students**
- **Provides the opportunity to interact with other online instructors and share best practices**
- **Provides exceptional mentorship**
- **Become a resource to colleagues who are seeking to develop their own courses**

Take your online teaching skills to the next level.

OLC's Online Teaching Certificate program will prepare you for the conception, implementation, and administration of online learning effectiveness and best practices. You'll collaborate with and learn from recognized experts. Plus, you'll begin applying learning outcomes immediately. We offer an advanced program and ID program, too.
