

"I didn't know how much I didn't know until I completed the OLC Online Science Labs Mastery Series Program. I feel more prepared to better serve students, which was my goal!"

Shannon McGurk, MS, MEd, Director of Distance Learning, Carolina Biological Supply Company

"This series was more than I expected. My entire team participated and we learned about quality resources and the many options available to facilitate an excellent online science lab learning experience for students. "

Gain Valuable Insights into Online Science Lab Technology

How did you hear about the OLC Online Science Labs Mastery Series Program?

I received an email from OLC about the OLC Online Science Labs Mastery Series Program.

Why the need/interest in this OLC Mastery Series Program?

I wanted the opportunity to improve upon my understanding of the technology tools and systems available to online science instructors and course developers.

How did the program help you in your position/career?

I gained valuable insight about tools, both technology-based and hands-on, available to help online science instructors help their students find success in their online lab science courses. I discovered so many resources, too many to digest in the time of the workshop, so I continue investigating the many resources that were introduced.

TOP OLC MASTERY SERIES BENEFITS

- > **Discovery.** Finding tools to help online science lab course instructors find success.
- > **Networking.** Meeting peers to help each other during the course and beyond.
- > **Sharing.** Exploring new ideas to gain other perspectives in the online science world.
- > **Reinforcement.** A great reminder of the 5 E Model steps involved in the instruction process.
- > **Investigation.** Learning alternative assessment strategies for online courses.

To whom and why you would recommend the OLC Online Science Labs Mastery Series Program?

Instructors teaching online science courses, Instructional Designers, Science course developers/ SMEs, Science Deans/Department Chairs- to broaden and improve their online science lab offerings.

About Shannon

I joined Carolina Biological Supply with more than 15 years of higher education experience. I have been active in the online learning community for more than 10 years, as a biological sciences instructor. As the Director of Distance Learning at Carolina Biological Supply, it is my goal to develop products that help students toward a successful, rigorous online science lab experience without giving up hands on interaction with the science world.
