How did you hear about this program?
My organization had an OLC membership and the other consultants used the programs as professional development to enhance work with faculty.

Why the need/interest in this program?
As a consultant and designer who advises faculty, it is important that I have a sound foundation of instructional practice.

How did this program help you in your position/career?
The program allowed me to apply best practices in online teaching and learning and bridge the gap between online student and online instructor, as participants are able to experience both. I became more confident in my everyday position because I knew I was giving sound advice to instructors based on my knowledge gained throughout the program.

To whom and why you would recommend the program?
I would recommend the Online Teaching Certificate Program to anyone who is teaching online in any capacity – formal, for-credit courses, non-credit courses, professional development, etc. The course is also valuable to those of us who advise these instructors. Participating allows instructors and consultants to enhance student success by applying best practices in online teaching.

"I became more confident in my everyday position because I knew I was giving sound advice to instructors based on my knowledge gained throughout the program."

"The Online Teaching Certificate Program provides participants a true opportunity to practice the research and ideas presented by the instructors and transfer the knowledge to our own unique environments."
Courtney R. Hebert, Learning Experience Designer, Louisiana State University

Learn from Experts and Transform Your Online Teaching Environment

TOP 5 PROGRAM BENEFITS

1. Practice applying new knowledge to final project
2. Opportunity to study specific topics more in depth
3. Relationships with other participants and mentor
4. Deep reflection on teaching and learning practice
5. Applicable certificate from a recognizable organization

About Courtney
Courtney has over 7 years of experience in K-12 education, higher ed, and educational technology. In her various roles as high school English teacher, technology coordinator, and technology consultant, she has worked to create environments where technology and education merge to create effective learning environments. Currently, Courtney is in the process of pursuing her Ed.D. in Instructional Systems Design and Technology at Sam Houston State University in Huntsville, TX.

Take your online teaching skills to the next level!
